Subject: Update of water quality objectives in SF Bay/Sac-SJ River Delta Water Quality Control Plan

Hi Lenny, Fred, and Joshua,

I work with Bruce Herbold on EPA's Bay Delta Team and I'm organizing a meeting between FWS, NMFS,

EPA, and hopefully Reclamation to discuss the update of the State Water Board's Water Quality Control Plan for the Delta and determine if there is interest in providing the State Board some well developed concepts/ideas for updating specific water quality standards including Delta outflow objectives, export/inflow objectives, and potential new reverse flow objectives for Old and Middle River.

I was able to find a date that works for FWS and NMFS -- June 21st from 12:00 to 2:00 PM at 650 Capitol Mall. Would any/all of you be interested in and available to join the conversation?
